Getting Started

- If concerned about colorfastness, test a 2-inch square of fabric in warm water to see if dye is released. If so, prewash and press the fabric.
- If concerned about shrinkage, prewash and press all the fabric.
- Read instructions thoroughly before beginning the project.
- For piecing, place right sides of fabric pieces together and use 1/4-inch seam allowances throughout unless otherwise specified.
- It is necessary that accurate 1/4-inch seam allowances are used. It is wise to stitch a sample 1/4-inch seam allowance to check your machine's seam allowance accuracy.
- Seam allowances are included in the cutting sizes given.
- Press seam allowances in one direction toward the darker fabric and/or in the direction that will create the least bulk.
